

## Tatum FS pressure regulator

The **Tatum FS** pressure regulator combines two Tatum Mono FS pressure regulators in one housing, connected by a connection piece with a shut-off mechanism. As such, the design makes full use of the advantages of the **Tatum Mono FS**. What is more, only one high-pressure connection is required to exploit the benefits of two redundant breathing regulators. The pressure regulator in question can be shut off from the high pressure by simply turning the control wheel 90° in either direction. During normal operation, both pressure regulators are pressurised. The system also complies with the required safety standards for a number of diving applications. When equipped with the approved breathing regulators, the Tatum FS pressure regulator becomes a redundant system, and can replace two individual breathing regulators with canister shut-off valves. The inflator connection for the jacket or dry suit is always on the secondary regulator.

Like our other apparatus, the **Tatum FS** pressure regulator has a modular design, and aside from the housing and the shut-off unit, it uses exactly the same modules as the **Tatum Mono FS** pressure regulator.

### Technical data:

Material:	Titanium alloy with a strength of 900 N/mm <sup>2</sup>
Weight:	1.7 kg
Pressure:	300 bar
Dimensions:	150 x 110 x 100 mm
HP filter:	Porous plastic, permeability < 35 µm
Shut-off valve:	Titanium/ceramic combination
HP outlets:	2 per side, 7/16"-20 UNF
MP outlets:	4 per side, 3/8"-24 UNF

The **Tatum FS** pressure regulator has the following components:

- Kirby Morgan EXO 26 BR full-face mask
- Mares Orbiter breathing regulator
- Apeks TX 100 breathing regulator
- Interspiro Divator full-face mask

and has been tested and certified as a breathing regulator module with these components in accordance with DIN EN 250.

Certification office: Germanischer Lloyd Hamburg CE 0098

Item no.: **09.08000.0001**

### Annual pressure regulator check-up

(excl. postage and packing; excl. replacement HP filters and cartridges)

### Five-year maintenance

(excl. postage and packing; excl. replacement HP filters and cartridges)

**Free**
